LAST CALL by your Fertilizer Dealer No. 8 in a Series appearing in this newspaper

you hold out any longer from buying your side-dressing, you may find it too late for your crops to take full benefit from the fertilizer. You may also find it hard to get it in time. I've still got a good supply of Chilean Nitrate of Soda on hand. But it's not going to last very long the way they're buying it just now.

Your Jertilizer Dealer

F you wait too long before side-dressing, you'll only be delaying harvest time and you won't get the big yields you should. With Chilean Nitrate selling at the lowest price in years, there's no saving in waiting until the last moment. Get your Chilean—the natural nitrate-NOW. Then there'll be no delay in putting out your fertilizer when crops need it most. In the new 100 lb. bags that stay in good shape, you'll find Chilean keeps in better condition. But be sure to insist on "Chilean" when you order your nitrate. It is the real thing ... the real original "SODA." Remember the two kinds - Original Chilean (Crystalline) and Champion Brand (Granulated) both natural

nitrate.
